## A RED HOT TIME

In the United States Senate Over the Armor Plate Deal.

the naval appropriation bill forced the senate to abandon the adoption of the house resolution for final adjournment Wednesday. The armor plate question, which, for five years has been a thorn in the side of the congress, upset the calculations of the senate leaders, and their well-laid plans went awry. It was a day of strife and turmoil in the senate. Early the conferees on the naval bill reported a disagreement and the senate was told plainly that the house would not consent to the amendment providing for an armor plate factory to be operated by the

The ball was opened by Mr. Penrose who offered the following proposition:
"That the secretary of the navy is hereby authorized to procure by coutract armor of the best quality for any or all vessels above referred to, provided such contracts can be made at a price which, in his judgment, is reasonable and equitable, but in case be is unable to make contracts for armor under the above conditions; he is hereby authorized and directed to procure a site for and to erect thereon a factory for the manufacturing of armor, and the sum of \$4,000,000 is hereby appropriated toward the erection of said fac-

Mr. Tillman attacked the amendment. He said Mr. Hale, chairman of the naval appropriation committee, has declared that the government is being robbed and that the armor trust has a knife at the government's throat. and now, it is proposed to let them cut the government's throat. We are face to face with a scandal as infamous as any in our history, seconded not even

Mr. Penrose interjected with evident feeling: "I resent the statement that there is any suspicion of scandal in this or any amendment which I pro-

"I am making no personal allusions," replied Mr. Tillman. "I am simply stating facts that are indisputable. The influences behind the house in this matter are the shipbuilders and the armor manufacturers.'

Mr. Hale challenged the last statesuch influences were behind either the

house or the senate. Mr. Teller of Colorado denounced Penrose proposition and declared that no scandal in our history will

equal that which will grow out of "a surrender now to this robber combine. Mr. Daniel said that under the present circumtances we must buy our armor plate from a notorious and universally recognized combine or build our own plant. He had never heard that business principles demanded that the buyer should place himself entirely in the hands of the seller, or that a man should employ an agent to do for him that which he could do for himself. "Why, asked Mr. Daniel, "did the armor plate manufacturers decline to tell the cost of the production of armor plate when | that some years ago an American lady asked by the senate committee?" Mr. Penrose asked permission to reply to in an ancient churchyard for her burial, this inquiry and began by referring to when the spade of the sexton struck Mr. Daniel's speech as a reckless statement and demagogic appeal. Mr. the past. Daniel resented this characterization and refused to yield further. Continuing, he urged that there was no emergency that should render it so necessary to hurry the construction of the navy as not to take time to do that which should be done in the interest of

the public welfare. At 2:20 Mr. Hale asked for a vote upon the pending proposition, but Mr. Butler addressed the senate in opposition to a surrender by the senate when it was on the verge of victory. The Penrose proposition was then voted upon and agreed to-39 to 35-as fol-

# A Relic of 1777 and a Bit of Its Inter-

Gov. McSweeney while in Louisville last week was handed an exact reproduction of the inscription on a tombstone in Great Britain, together with the following statement in writing about the matter, it all being of particular interest to the people of this State: "A relic of 1777: Simon F. Monroe, Esqr., of New Orleans, La., who twenty years ago made a visit to Scotland. brought home a curious and interesting ment, saying he did not believe any relic which was unearthed by the merest accident in an ancient churchyard in Linlithgow, Scotland. ### Favors Trusts

If the Republican party were really opposed to trusts in practice as well as in theory that party would pass the House anti-trust bill in the Senate and send it to the President. This buncombe measure which both parties oined in adopting is really only an affirmation of the common law. The Democrats succeeded in getting some campaign advantage out of the discussion by putting their opponents on record against an amendment authorizing the President to place on the free list articles in which he is satisfied there is a combination in restraint of trade. This was a too practical thrust at the trusts. It was defeated by a vote of 122 to 133.—Philadelphia Record.

### A Horrible Accident

While sitting on a trestle over a small creek Wednesday, just this side of Lake Lanier, about nine miles from Selma, fishing, the train from Meridian due at 11:20, ran over and killed and ran over another younger brother another younger sister jumped off the trestle and escaped unhurt. The bodies were carried to Selma, where the family lives. The track where the accident occurred is straight track for three miles, and there is no reason why the party of pleasure seekers did not see

### HANNA'S METHODS.

A Terribie Exposure in the United States Senate.

BY SENATOR PETTIGREW.

Four Hundred Thousand Dollars Given to the Republican Campaign Fund by

One Firm. The Washington correspondent of The News and Courier, writing under date of June 5, says: Senator Hanna and the Republican party were given a bad hour and more to-day by sensational disclosures in the course of a political debate begun by Senator Bacon, and in which Senator Pettigrew played the role both of prosecuting attorney and chief witness. As witness the

South Dakota Senator told of a transaction which occurred in the campaign of 1892, when the Cramps, the famous shipbuilders, contributed four hundred thousand to the Republican campaign fund, with the understanding that they were to be reimbursed in ship contracts with the Government. Incidentally because of Senator Hanna's promtness in jumping to the defence of his party and making a general disclaimer of Republican innocence, Senator Pettigrew opened upon the same line which Senator Clay followed in his speech of Saturday, reviewing the charges which had been made against Rathbone and Senator Hanna himself in connection with the alleged bribery

that Senator Pettigrew made the sensational statement that Mr. Cramp himself had told him that he had contributed four hundred thousand dollars to the Republican campaign fund that year with the understanding that he was to have shipbuilding contracts by which he could get his money back; that he was satisfied the money had not been used for the purpose promised; that it had been diverted from its use in the campaign, as he had been told it was to be used, and that he had satisfied himself of this fact by employing private detectives. It will be recalled that Senator Pettigrew was then a very active Republican. The two men were coming home from Europe on one of the ships of the American line when the conversation occurred. Mr. Cramp was then anxious to see if there was any way he could get his money back from the national committee. Senator Pettigrew said that he had afterwards referred to this conversation when talking to Senator Carter, the chairman of the national committee that year, and that Sepator Carter had simply smiled and said, "Well, we did hit the

The efforts of the Republicans under the lead of the Republican majority in the House to force a contract with the armor plate people for something over thirty thousand tons of armor at such figures as the Secretary of the Navy may see fit to pay, giving him unlimited power, in other words, was charged up to the Republican determination to make the armor plate people put up a vast contribution to the campaign fund this year. It was charged that such a contract would mean a net profit to the armor plate people of over seven millions of dollars, and they would unseventh of that to Mr. Hanna's com-

After Senator Pettigrew's charges both Senator Hanna and Senator Carter enterred general disclaimers. Senator Hanna referred particularly to the bribery charges in which his dear friend Rathbone figured, declaring that that was simply a conspiracy gotten up by the Democrats and a few Republican traitors. He was very severe in his denunciation of Senator Pettigrew and so was Senator Carter.

## THE MONUMENT AND MARKERS.

The Sites for Them Selected on Chicamauga's Battlefield.

The members of the Chicamauga monument commission-Gov. McSweeney, Adjt. Gen. Floyd, Gen. Walker, Col. Wilson and Capt. Henderson, accompanied by Gen. Ellison Capers, returned Tuesday from Chattanooga, whither they had been to select the sites for the monument of the State of South Carolina and the several regiments in the great battle. The commissioners gave the following statement about their trip and its results:

The commission visited Chicamauga Park on Monday, and by invitation Bishop Capers met the commission Gen. H. V. Boynton, president of the park commission, also met the party, and Col. Smart accompanied him and had carriages to meet the commission at terminus of the electric railway. They visited first the position of the Twenty-fourth South Carolina regiment, and selected the place for the marker. This was ground over which Bishop Capers had fought. The soldier-minister made a touching and impressive prayer at the spot. The site for the marker for Culpepper's battery was then selected. They then went to the positions on Dyer's knoll, where they selected the place for the South Carolina monument. It is a very prominent place and the monument will be seen for miles. Gen. Boynton will have a splendid road built out to the selected sites for the markers for the regiments of Kershaw's and Manigault's

After this the commission met at the government headquarters and enjoyed and attempt at bribery growing out of quiet lunch, and at their meeting heartily adopted resolutions thanking Gen. Boynton, Col. Smart and Capt. Bates for the many attentions shown the commission, and the information velopments. It started over the fight and assistance given. Walker securing from the famous Bloody Pond a bottle of water which his wife wanted champions of anti-trust legislation, but | as a precious memento of the battle, as during the battle its waters were stained ting them squarely on record against | with the blood of the men of the Tenth South Carolina regiment, which Gen.

### Train Robbers Failed.

The northbound Cannon Ball train on the International and Great Northern was held up after midnight, near Price's Switch, Texas, one night last week. A pile of ties was placed on the track, and, as the train came to a stop, three masked men climbed into the engine. They forced the engineer and fireman to uncouple the mail, baggage and express cars and pull them out two miles from the remainder of the train. The robbers then commanded Express Messenger Rutherford to open the door of his car. Failing to get any response the robbers made fireman Love break a hole in the end of the car. While this was being done the fireman begged the messenger and baggage master not to shoot. The messenger, who was well protected by a barricade, said he would kill the first man to enter the hole. Love was forced in and the messenger fired past his head, barely missing the robbers, who then undertook to kill Rutherford by shooting through the side of the car. In the confusion Engineer Rich crawled away to his engine and pulled the throttle wide open and left the robbers behind. A quick run was made to Jacksonville, fifteen miles north, where bloodhounds were secured to chase the robbers.

### A Unique Petition.

To the Editor of The State. Probably the most unique petition ever presented to a governor of South Carolina was that of 16 maidens. Has the reader ever heard of it? Let me tell about it. In the year 1734 16 young women signed a petition. It was not about woman's political rights as some of my readers, nor was it against intemperance, but it was against --widows! These sixteen demands appear to have been as much opposed to widows as was Mr. Tony Weller when he continuously advised his son Sam to 'beware of widows." The petition complained that the widows captivated all the marriageable men and the governor was asked to order that no man mardoubtedly be expected to give at least a rying for the first time should marry a widow. We do not know what the governor said or did about this remarkable petition. What could be do? We presume this petition can yet be found somewhere in the secretary of State's office. It would be interesting to learn the names of these sixteen outspoken

The finance issue, while of immense importance, must have no place in this campaign; its introduction will endanger more vital interests.

No man has a better right to say this than I, who twenty-five years ago made it a part of my contract in taking charge of The Washington Daily Chronicle, that I should be allowed to advocate the remonitization of silver, and in the Buffalo convention of 1896 wrote and secured the adoption of the clause indorsing the Chicago platform. Asbury Coward, A Darlington Murder, There is a revolting tale of a homieide that has just come fully to light in Darlington county. It occured last week on the plantation of Evan Lide The United Confederate veterans ers, Perry and Jule got into a row of some kind and Perry was shot, Mr. Lide heard the shot and the subsequent over the river. The morning after the shooting the negroes working in the field saw Jule go to the woods, with a wagon and get a load of straw and haul again. Nothing more was thought of the matter until a few days after, when a party of negroes were returning from work through this piece of woods and

large bundle from the wagon, dump it Perry's body buried there. Jule was but claims that he did it in self defense.

Tillman's Hard Work.

The Washington correspondent of

The News and Courier says Senator Tillman has had a hard fight all along the line of battle in his efforts to get an adjustment of the claims of the State against the United States for money expended by the State during the war of 1812 and the Florida war of 1836. Strong opposition was manifested in the committee on appropriations to the amendment offered by the Sena-tor to the sundry civil bill, but he finally succeeded in having the amendment reported by the committee. When the amendment was considered in the Senate it was the subject of much de, bate and rejected, but the Senator asked for a reconsideration and after two hours of debate the amendment was passed. The House, however, finally refused to accept the action of the Senate on this item and the amendment was defeated in conference. Senator Tillman, anticipating this action, had previously introduced a bill in the Senate providing for a settlement of these claims against the government and at 2 o'clock Wednesday night he called it up. Objection was raised to its consideration, but after debate the bill was considered and passed by the Senate. It was an unexpected victory and the Senator says he intends to push the matter in the House at the next session of Congress.

### Thousands Being Fed.

A dispatch from London says the Peninsular and Oriental Steamer company has sent 5,000 pounds to the India sufferers. Cholera continues in many of the Bombay districts. The condition of the people there is deplorable as a number of large works are deserted. The Bombay government has authorized the opening of scattered works, but it is reported that the situation is difficult to deal with. Elsewhere the relief measures are sufficient generally in British India and are improving in the native states. About 5 .- $570,00\overline{0}$  people are now receiving relief.

## SAVE THE REPUBLIC

Will be the Watch Word of the United Democracy.

EMPIRE AGAINST REPUBLIC.

Chairman-James K. Jones Says the People Make the Is-

> sues and Sentiment is United.

"I am of the opinion that the Kansas City convention will be the most harmonious ever held by the Democrats of this country, and that it will be a veritable love feast in which the Democrats from all sections of the country, including those who differed with the Chicago declaration of 1896, will unite in one determined, patriotic effort to save this country from the

imperialists and the money-grabbers."
Chairman Jones of the National Democratic Committee, spoke the above words to the Washington correspond-ent of the Atlanta Journal last Wednesday. Writing of the matter the correspondent says this is held by all of the party leaders in Washington. As to the issues of the campaign it is recognized that the people make the issues, and the overwhelming importance of the problems that have arisen since 1896, make them of necessity the

leading questions in the campaign.
It is "Empire against republic" and that will be the battle cry that Bryan will sound throughout the length and breadth of this country during the months of August, September and Oc-tober. There will be no abandonment of the other principle for which the Democracy stood four years ago. The threat of a large standing army and the trust question will each be pressed vig. orously upon public attention. The charge will be made that the administration has not enforced the anti-trust laws although pretending to be anxious

to suppress these combinations. Democrats will argue that the president improved condition of business as compared with the condition a few years ago, comes from the enormous production of gold, the money metal of final redemption, and that this increased volume shows what an increase of money will do. They will contend that they have never advocated an unlimited increase of money, but only to the old normal level and maintain them there. With regard to the Democratic vice-presidential nominee, nothing has been settled. There is a general disposition to believe that this problem can safely be left to the wisdom of

# Young Jersey Wife Was Determined

Angered because she believed that Joseph Yerry, a carpenter building a house across the street, was circulating unkind stories about the visits to her of Arthur Jones, the young son of a village butcher, Mrs. Fred Feidler. of Lincoln avenue, Ridgefield Park, N. J., horsewhipped the carpenter in defence haul something into one of Mr. Lide's of her good name, and threatened to corn fields and get out of the wagon with whip the wife of former Freeholder a spade and dig a hole and later take a Andrew Rodman, owner of the new

house, because she interfered. As Mr. Rodman tells the story, the workmen on his house made insinuating remarks to young Jones when his stays at the Feidler cottage, on his arrested and put in jail. He has daily rounds delivering goods for his confessed to the killing of his brother father, were prolonged to an hour or more. The workmen's remarks finally

came around to Mrs. Feidler. Going over to the Rodman house she accused the carpenter of telling tales about her, and asked him to apologize. He refused, and the young wife pulled a whip out from under her cape and snapped it across the six foot carpenter's neck and shoulders. He caught the whip and was about to defend himself when Mrs. Rodman interfered. Mrs. Feidler, so Mr. Rodman says,

appeared and ordered Mrs. Feidler to leave. Then, Mr. Rodman said, the enraged woman threatened to whip his wife. For this Mrs. Rodman had Mrs. Feidler placed under a \$250 bond by Justice Cumming, of Hackensack.

Mrs. Feidler admitted the substantial accuracy of the story told by Mr. Rodman, and said she was always ready to defend her good name. He said she

then slapped Yerry twice in the face,

knocking a cigar from his mouth. It

was at this point that Mrs. Rodman

had known the buther's son for a long while, and there was no harm in his visiting her. She did not tell her husband about the affair until it was over, because, she said, she did not know what might happen if he attacked the carpenter. For myself, young Jones said his calls were always connected with his busi-

The Columbia State says, Senator Tillman will hardly be with the boys through the game this summer. He will go to the first campaign meetingat Orangeburg-but, as he thinks his political fences are in satisfactory condition, he will go out to South Dakota and help Senator Pettigrew in his campaign for reelection. Pettigrew has been a thorn in the flesh to the Republicans, and they are making a desperate effort to beat him. Senator Tillman may attend some of the meetings in this State to show his gratitude, as he expresses it, but he will not get into half of the counties. He will aid in the national Democratic fight in States other than South Dakota. When asked what he thought of Bryan's chances, Mr. Tillman said that if the Democrats did not
